

Charlevoix Historical Society - Interior Office Renovation plan at Harsha House Museum

Bathroom - shower to be removed and mop sink installed. Flooring to be repaired and replaced with vinyl wood-look tiles.

Former kitchen to be remodeled into office space, with closet for storage and new flooring. Copier to be moved into existing office to make room for desk. A restored desk from Earl Young's office is being donated to the Society for the office.

Curator is currently working from Library, using table as a desk, and with no phone. Not ergonomic, and occupies valuable meeting space.

## Charlevoix Historical Society - Interior Office Renovation plan at Harsha House Museum

Existing office used by Controller, near all Accounting files. Copier will be moved into this room. Closet door will be removed for better accessibility (right image). This was a bedroom in the house.

Office cubicle installed on exhibit floor in the corner for part-time Curator. He is in the office most days, making it impractical to share space, nor is there room for another person to set up and function.
